

# Wendland Roof Lantern Glass Guide

## SmartGlass Clear 1.2 W/m<sup>2</sup>.K (Clear)

Clear glass, ideally suited for roof installations where natural light is limited, enhancing brightness while maintaining a comfortable, balanced interior environment.

U-Value	Light Transmission	Solar Rejection	UV Protection / Rejection	Cleaning
1.2	77%	31%	90%	Self Cleaning

## SmartGlass Blue Plus 1.0 W/m<sup>2</sup>.K (Blue)

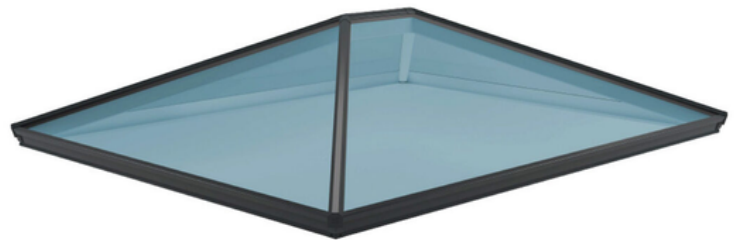

With a subtle blue tint, this option is ideal for roof installations exposed to strong sunlight or overheating, helping reduce solar gain while maintaining natural light and high UV protection.

U-Value	Light Transmission	Solar Rejection	UV Protection / Rejection	Cleaning
1.0	48%	68%	90%	Self Cleaning

## SmartGlass Ultra 1.0 W/m<sup>2</sup>.K (Premium Blue)

With a deeper blue tint, this premium option is ideal for roof installations with high sun exposure, delivering superior solar control, reduced glare, and enhanced comfort with a refined finish.

U-Value	Light Transmission	Solar Rejection	UV Protection / Rejection	Cleaning
1.0	24%	82%	94%	Self Cleaning
